### SPECIFICATIONS:

- + Modern bike briefcase with flap
- + Ideal for biking to the office, city, university etc.
- + Sturdy soft-touch PU-laminated Cordura blend
- + Featuring QL2.1 mounting system for carriers with a tube diameter up to 16 mm
- + Reduction inserts for tube diameters 8, 10 und 12 mm with anti-scratch function preventing abrasion on the rack
- + 20 mm hook available as separate accessory (e.g. for E-bikes)
- + Top QL hook and lower hook adjustable without requiring any tools
- + Lower hook rail made of two-component hard-soft synthetic with anti-scratch function protecting the rack
- + Pivotal mounting rail can be adjusted for carrying on the left (standard) or right side of the carrier
- + Main compartment closed with metallic buckles, flap adjustable in height
- + Zippered outer pocket (not waterproof)
- + Organizer with laptop sleeve, pen slot and key strap
- + Removable shoulder strap fixed with snaphook
- + Shoulder strap microfiber pad
- + Two strong lateral 3M Scotchlite reflectors

**Contents:** Commuter-Bag Two Urban with shoulder strap, reduction inserts 8, 10 and 12 mm (1 pair per size)

**Attention:** Remove or stow away shoulder strap prior to biking

**Optional accessories:** Anti-Theft Device (No. E125), QL2.1 hook 18 mm (Art. Nr. E211) & 20 mm (No. E193)

**Attention:** Maximum load per pannier is 9kg / 20 lbs. We recommend weighing each loaded pannier to confirm that the maximum allowance of the pannier fixation is not exceeded. This practice is advised for both rear and front panniers. CAUTION: The maximum weight capacity of every carrier model is different. Please observe the maximum weight allowance of the carrier fitted to your bicycle. Note: Sometimes the maximum capacity of the panniers fixing system can exceed the maximum capacity of the carrier. DO NOT exceed the maximum capacity of the carrier! Note, that the use of panniers will significantly influence the handling properties of your bicycle.

**Attention:** As abrasion cannot be ruled out, we recommend that all points where the mounting system contacts the bicycle rack or frame be protected by scratch protection film.

**Note:** For reaching protection standard IP53 (5=dust protected, 3=protected against splash water coming 60° to the vertical) the roll closure must be entirely closed.
