for ORTLIEB water containers and PET bottles

length cm/in.	weight g/oz.
95/37.4	90/3.2

SPECIFICATIONS:

- + Drinking-Tube for use with ORTLIEB water containers (Water-Bag, Water-Sack, Water-Belt) and international standard PET bottles with 28 mm thread
- + Converts Water-Bag, e.g. suspended in a tent, into a hands-free hydration system
- + Ideal with PET bottles in backpacks, bags or in the car
- + Screw threaded cap onto valve cap of ORTLIEB Water-Bag or PET bottle
- + Remove dust cap from mouth piece, open drip-stop on mouth piece by turning it counterclockwise by 180° until it locks in place
- + For drinking simply bite valve and sip
- + Auto-shutoff by means of integrated spring valve
- + For closing turn mouth piece clockwise by 180°
- + Length of tube can be adapted inside the container
- + Mouthpiece can be taken apart for hygenical cleaning
- + Cleaning with warm water and liquid soap

Contents: Drinking Tube comes with biting valve, dust cap, threaded cap diameter 28 mm/1.1 in., tube extension

Attention: Not for use with sodas containing gas; clean tube and valve at regular intervals, store only when dry!
